VOCAB MATCH
1) Create a path or maze with straight edges. You may use wooden planks, popsicle sticks, base ten rods, or construction paper to make your maze.

2) Spread the word cards throughout the maze. Mix up the definition cards and place them face down in a stack.

3) Flip over the top definition card. Program your robot to move to the matching word. Try to use only ONE sequence of code.

4) Flip over the next definition card and repeat. Continue with all definition cards.
