2D SHAPES

MAKE A TRIANGLE

Use crayons or popsicle sticks to make the shape of a triangle!
Take a picture of your creation.

MAKE A RECTANGLE

Use crayons or popsicle sticks to make the shape of a rectangle!
Take a picture of your creation.

MAKE A RHOMBUS

Use crayons or popsicle sticks to make the shape of a rhombus!
Take a picture of your creation.

MAKE A PENTAGON

Use crayons or popsicle sticks to make the shape of a pentagon!
Take a picture of your creation.

MAKE AN OCTAGON

Use crayons or popsicle sticks to make the shape of an octagon!
Take a picture of your creation.

RECTANGLE

Use the SHAPES tool to draw 3 different rectangles.
Go on a rectangle hunt! Take pictures of 3 different rectangles you find.

RHOMBUS

Use the SHAPES tool to draw 3 different rhombi.
Go on a rhombus hunt! Take pictures of 3 different rhombi you find.

PENTAGON

Use the SHAPES or LINES tool to draw 3 different pentagons.
Go on a pentagon hunt! Take pictures of 3 different pentagons you find.

OCTAGON

Use the SHAPES tool to draw 3 different octagons.
Go on an octagon hunt! Take pictures of 3 different octagons you find.

MAKE A SQUARE

Use crayons or popsicle sticks to make the shape of a square!
Take a picture of your creation.

TRIANGLE

Use the SHAPES tool to draw 3 different triangles.
Go on a triangle hunt! Take pictures of 3 different triangles you find.

2D SHAPES

USE THE SHAPES TOOL TO DRAW THREE DIFFERENT EXAMPLES OF THE SHAPE.

SQUARE

How many sides? 4
How many vertices? 4

GO ON A SHAPE HUNT! FIND 3 DIFFERENT REAL EXAMPLES OF THE SHAPE AND TAKE PICTURES.

BUILD THE SHAPE OUT OF OBJECTS AND TAKE A PICTURE.

MAKE A SQUARE

Use crayons or popsicle sticks to make the shape of a square!
Take a picture of your creation.

How many sides? 4
How many vertices? 4

TYPE THE NUMBER OF SIDES AND VERTICES ON THE SHAPE.

CIRCLE

Use the SHAPES tool to draw 3 different circles.
Go on a circle hunt! Take pictures of 3 different circles you find.

HEXAGON

Use the SHAPES tool to draw 3 different hexagons.
Go on a hexagon hunt! Take pictures of 3 different hexagons you find.

3D SOLIDS

MAKE A TRIANGULAR PRISM

Use toothpicks for the edges and playdough for the vertices.
Can you make the shape of a triangular prism?
Take a picture of your creation.

MAKE A RECTANGULAR PRISM

Use toothpicks for the edges and playdough for the vertices.
Can you make the shape of a rectangular prism?
Take a picture of your creation.

MAKE A CYLINDER

Using playdough, can you make the shape of a cylinder?
Take a picture of your creation.

MAKE A PYRAMID

Use toothpicks for the edges and playdough for the vertices.
Can you make the shape of a pyramid?
Take a picture of your creation.

TRIANGULAR PRISM

Can you find the TRIANGULAR PRISM?
Go on a triangular prism hunt! Take pictures of 3 different triangular prisms you find.

RECTANGULAR PRISM

Can you find the RECTANGULAR PRISM?
Go on a rectangular prism hunt! Take pictures of 3 different rectangular prisms you find.

CYLINDER

Can you find the CYLINDER?
Go on a cylinder hunt! Take pictures of 3 different cylinders you find.

PYRAMID

Can you find the PYRAMID?
Go on a pyramid hunt! Take pictures of 3 different pyramids you find.

CONE

Can you find the CONE?
Go on a cone hunt! Take pictures of 3 different cones you find.

3D SOLIDS

CLICK AND DRAG THE CORRECT SOLID. TYPE THE NUMBER OF FACES, EDGES, AND VERTICES.

CUBE

How many faces? 6
How many edges? 12
How many vertices? 8

GO ON A SOLID HUNT! FIND 3 DIFFERENT REAL EXAMPLES OF THE SOLID AND TAKE PICTURES.

USE PLAYDOUGH AND TOOTHPICKS TO MAKE A MODEL OF THE 3D SOLID.

MAKE A CUBE

Use playdough and toothpicks to make the shape of a cube!
Take a picture of your creation.

SPHERE

Can you find the SPHERE?
Go on a sphere hunt! Take pictures of 3 different spheres you find.

SPHERE

Can you find the SPHERE?
Go on a sphere hunt! Take pictures of 3 different spheres you find.

FRACTIONS

[illegible]

MEASUREMENT

MEASURE TO THE NEAREST

MEASURE TO THE NEAREST HALF INCH

MEASURE TO THE NEAREST HALF INCH

MEASURE TO THE NEAREST HALF INCH

MEASURING TO THE NEAREST INCH

CLICK AND DRAG THE RULER TO MEASURE THE OBJECT TO THE NEAREST INCH. TYPE THE MEASUREMENT IN THE BOX.

MEASURE TO THE NEAREST INCH

8 inches

MEASURE TO THE NEAREST HALF INCH

MEASURING TO THE NEAREST HALF INCH

CLICK AND DRAG THE RULER TO MEASURE THE OBJECT TO THE NEAREST HALF INCH. TYPE THE MEASUREMENT IN THE BOX.

MEASURE TO THE NEAREST HALF INCH

7 $\frac{1}{2}$ inches

MEASURE TO THE NEAREST HALF INCH

1 $\frac{1}{2}$ inches
