

The following instructions and links are designed to be used with Google Slides only. Each student (or parent) will need their own Google account if they will be working on their own Math Hunt activities using Google Slides. If your students will be using iPads or iPhones, they will also need to download the [Free Google Slides App](#) for the digital notebook to work properly.

Sight Words Digital Dice Activities are ideal for Distance Learning and virtual class meetings to allow students practice reading and writing sight words in both a guided format and independent format. For the “warm-up” portion, the teacher or students will “roll” the digital dice to take turns reading sight words aloud. Students will then continue the remaining slides independently, rolling and writing sight words.

The Google Slides file links on Page 3 may be shared directly with students or parents.
