HOW TO USE

The following challenge cards are designed to accompany “Hashtag” building blocks, found seasonally in Target Dollar Spot.

You may choose to use the cards as a whole class, or give them as Fall Party or Halloween gift to your students.

To complete the challenge cards, students will need about 52 blocks in any colors you have available.

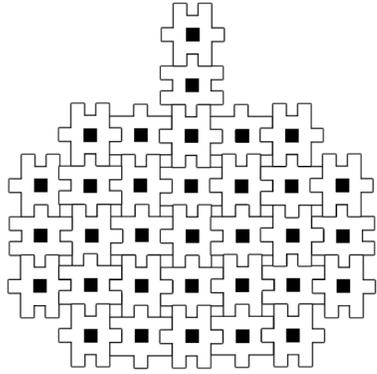

The colors of blocks on the cards DO NOT have to match your students’ blocks.

Cards can be copied on white or colored paper, cut apart, hole-punched in the top left corner, and connected with a binder ring or ribbon.

**Pages 3-6: Gift Tag & small challenge cards
for individual students
(black & white and colored versions)**

**Pages 7-12: Larger challenge cards for class use
(black & white and colored versions)**
